Terrible Accident—Many Drowned

DETROIT July 23—A terrible accident occurred about 10 o'clock last evening on the Detroit river some nine miles below the city. The excursion steamer *Garland* with 1200 persons on board under the auspices of the Detroit moulders union while going down the river collided with the steam yacht *Mamie* coming up cutting her in two so that she almost instantly sank. The latter had on board twenty four persons, consisting mainly of Father Bleyenberg pastor of Trinity Roman Catholic church of this city and a number of acolytes and boys officiating in various capacities in the service of the church. They had been on an annual excursion to Monroe and were returning home. The night was bright moonlight, and there would seem to have been no earthly reason save that of criminal negligence why the accident should have occurred. Of those on board the *Mamie* the following were drowned: Mrs Fred Martin wife of the engineer, Miss Lizzie Murphy housekeeper of Father Bleyenbergh, Miss Mary Hahn, domestic of the Trinity church parochial school, Frank Solan, John Howe, David Barry, John Donovan, Willie Caddie, David Caddie, John Cosgrove, James Toomey, Joseph Monaghan, all altar boys in the church, aged from 11 to 14, Thomas Kelly church sexton, Jim Kelly, organ blower, and Andrew Dunn, a boy who was invited to accompany the excursion. Thomas McLogan and another boy are missing, doubtless lost. Captain Hoffman, Engineer Martin, Father Bleyenbergh, Miss Lizzie Dusseau of Monroe and four others were saved. All parties reached this city about 2 o'clock this morning. No bodies have been recovered.

Gen. Grant at Denver.

DENVER July 23—The *Tribune's* Leadville special says Gen Grant arrived last evening at 9:30. He was received by a company of mounted police, two companies of cavalry, five companies of infantry, the city fire department and five hundred veterans of the late war. A salute of 100 guns was fired while the procession marched through the city. The line of march was brilliantly illuminated and decorated with evergreens and flags. The streets were crowded. It is estimated that nearly thirty thousand people were on the streets. The general excused himself from making a speech on account of hoarseness. To-morrow he will visit the mines, attend theater in the evening and a ball and reception after the theater. The party will remain until Monday. The city expends $20 000 mostly raised by private subscription, for the entertainment.

The Indian Depredations on the Cimmaron.

TOPEKA, Kansas, July 22—H. T. Vandendorf, who was sent by Gov St. John to inquire into the reported Indian depredations on the Cimmaron, has returned, and says that a party of five Osage Indians attacked a herd of horses owned by Mr Driscoll, whose ranch is located several miles south of Dodge City and near the Cimmaron river. The herder in charge of the horses undertook to drive them away until his horse was killed. The Indians secured five horses and left, returning to Indian territory. Capt. Leschum with forty mounted soldiers left Fort Dodge the day before Vandendorf arrived, acting under telegraphic orders from Gen Pope, who had been notified by the governor of the rumor. Cattle men are securing all the arms and ammunition they can, and mean to defend themselves if there are other attempts of this kind.

An examination made by physicians show the following result: Pulse 72, temperature, 99; respiration, 16, weight, 131¼.

NEW YORK July 23—Dr Tanner began his twenty sixth day at noon in better spirits and condition. He is indignant at reports that he is failing, and was never more confident of success. A New York manager this morning offered him $600 per week to complete the fast at his theatre.

ENGLISH GRAIN MARKET

LONDON July 23—A leading grain circular says that a few days of fine weather though causing consumers to hold off does not affect the value of wheat generally and except for some inferior descriptions, Tuesday's quotations are maintained. There was an average attendance at to-day's market, but there was a dull feeling and a very indifferent demand. Red wheat declined 1d. White was in small supply and realized previous quotations.

Jesuit schools, here and in the provinces will break up for the holidays at the end of July. It is understood that when the police present themselves on August 30 they will find no Jesuits to disperse. It by no means follows, however that the schools are to be abandoned, for new pupils are being entered for the October term but in the *interim* they will have nominally changed hands. They will still be the property of the ecclesiastics and will be conducted in the same style. Some of the teachers will be the same but the schools will be the property of the secular priests or of one of the recognized orders.

CONSTANTINOPLE July 23—The motive of the murderer of Madame Skobeloff was revenge, the madame having refused her consent to his marrying her maid.

Germany and Turkey

BERLIN, July 23—The government does not seem at all satisfied with the news that the dispatch of German officers to Constantinople has had the effect of making other powers uneasy. The minister of foreign affairs has therefore ordered German representatives abroad to say that the dispatch of Prussian councillors to Constantinople had no political significance whatever.

The Porte's Reply.

CONSTANTINOPLE, July 23—The council of ministers yesterday decided upon a reply to the collective note of the powers. The reply asks the powers to agree in principle that Janina, Larissa and Metzovo shall remain in Turkish possession and proposes that the porte shall reopen negotiations with Greece on this basis. This is substantially a rejection of the decision of the Berlin conference.

To Follow Tammany

SARATOGA July 23—The Tammany democratic state convention met to-day. Several members sent substitutes. The secretary said that he had resignations from all the candidates for presidential electors nominated at the Shakespeare hall convention. Page, of Oswego, moved acceptance of all. Cowen, of Saratoga, thought it better to appoint a committee to confer with the other organization before accepting the resignation. No action was taken on the motion. John Kelly chairman appointed five members to act with the chairman and secretary to prepare an address.

Indiana Politics.

INDIANAPOLIS July 23—Reports are circulated that Landers the democratic nominee for governor, will resign. It is certain that he is very unpopular in the southern part of the state and not at all popular in the north, but it is altogether unlikely that he contemplates resignation. If he does neither he nor his friends have given any sign. Landers and all democratic orators will speak at different parts of the state on the 14th of August. The nationals claim they will wage a furious campaign and expect to draw heavily from the democrats, especially in view of the rejection of De La Matyr by the democratic congressional convention. De La Matyr, who is canvassing in Alabama, says the nationals will defeat the democrats in that state if there is a fair vote.

THE PARIS SUICIDE.

The Old Story of Misplaced Affections—Abandonment and Despair.

[SPECIAL TO THE OREGONIAN]

NEW YORK July 23—The *Herald's* Paris correspondent sends the following: The suicide of Mrs Annie Wetmore which took place at the residence of Lady Albert Clinton, at No 12 Rue Chateaubriand, at 3 o'clock to-day, has created a painful sensation among the English and American residents here. It is the old story of misplaced affections, abandonment and despair. Some two or three years ago the deceased lady met the Marquis Anglesey, then Lord Henry Paget. She was a handsome and attractive woman. It is said that she abandoned her husband and only child under the impression that if she could get a divorce Lord Henry Paget would marry her. However this may be it is certain that the relations of the parties were of the most intimate character and the friends of Mrs Wetmore were led to believe that a promise of marriage actually existed and that the divorce having been obtained she would soon become Lady Anglesey. Lord Henry Paget having succeeded to the title the unfortunate lady's hopes were suddenly blasted however by the publication of the marriage of the new marquis to the Hon. Mrs. Wodehouse, widow of Lord Kimberly's second son and the daughter of Mr Preston King of Georgia. The shock to Mrs Wetmore was terrible, and her friends thought she would lose her reason. However she became more composed and the idea occurred to her of suing the marquis in the English law courts for breach of promise as she had upward of two hundred of his letters, which she considered would establish her case. Whether she shrank from the scandal of such a proceeding or whether she was deterred from putting it into execution by insufficiency of means is not known but she settled down into deep melancholy from which nothing could arouse her and finally she procured the fatal drug which put an end to her existence. I give you the facts as I have gleaned them without vouching for their perfect accuracy as efforts are being made to keep the matter as quiet as possible. I know not how far Lord Anglesey may be to blame in the matter but it is quite possible that the unfortunate lady's hopes may have led her to indulge in illusions in regard to a marriage with him for which there was no serious foundation. The police authorities held an inquiry into the affair to-day and after inspecting the body gave M Weeks of the chapel in the Rue Bayard permission to make all the necessary arrangements for the funeral. The last service will be conducted by Dr Morgan at his chapel on next Saturday morning.

RAILROAD STATISTICS FOR 1879

Large Increase of Business Over Previous Year and More Dividends Paid than Any Year Since 1862

NEW YORK July 22.—The railroad manual for 1880 shows the number of miles of road in operation at the close of 1879 to be 86 497, an increase for the year of 4771 miles. Thirteen of the principal lines in the country moved 45 557,0[illegible]2 tons of freight in 1878 and 67 092 549 tons in 1879 and earned from freight $112 004 619 in 1878 and $116 311 45[illegible] in 1879. It will be seen by the above that while there has been an increase in freight moved of 47.7 per cent and in miles of road operated 20.83 per cent the increase in earnings from that source have been only 3.84 per cent. Freight is now moved at a rate per ton per mile which would five years ago have been regarded as impossible. The percentage of decrease has been 4.31 per cent, nearly equal to the increase in tons of freight moved. The gross earnings of all roads whose operations have been reported have equaled $529 012 290 against $490 103 351 for 1878, $[illegible] for 1877 and $503 065 505 for 1876. Dividends paid during the year aggregate $61 681 4[illegible], being the largest amount divided among stockholders for any one year since 1862. The gross earnings of railroads of western states were $[illegible] against $[illegible] for 1878. The net earnings were $[illegible] against $77 938 2[illegible] for 1878 and $66 050 4[illegible] for 1877. Dividends paid amounted to $[illegible] against $[illegible] 222 for 1878 and $[illegible] for 1877. Earnings from freight, mails etc. were $[illegible] 9,308 775 and from passengers $54 448 776.

Remarks The railroad hotel will not be built at Dallas this season, the company claiming that the donations of land are not sufficient to justify them in the necessary outlay. In our opinion our people were very liberal in their offers, and it is not likely that the same will again be made.

Eight deaths took place in Salem during the quarter ending June 30th. Of the decedents three were males and two were nonresidents of Salem.

Linn county will hold an agricultural fair at the fair grounds near Albany from October 6th to the 10th, inclusive. This will be the first fair held in that county for some years.

The hay crop of Linn county is immense and is mostly housed. The oat harvest has been in progress there during the past week and some fields of wheat will be ready to cut next week.

Total population 7620.

The census of the precincts of Upper Skagit, Goodell's and Ruby Creek numbers 519. Of these only 77 are what may be termed *bona fide* settlers residing along the Skagit river from the boundary of Mount Vernon precinct at Jamieson's camp to Sauk river. 48 were found at the town of Sauk, quite an important little business point and the principal head of steamboat navigation. 13 at Portage, 56 at Goodell's landing another little business point and 295 in the mining district proper.

The somewhat notorious "man from Kansas," "Col." Smallwood, who was let out of the office of register at Vancouver, now wants to be a candidate for prosecuting attorney in the Vancouver and Olympia district. It is not strange to find the "Col" turning up again so soon as office seeker, for he is one of the "professional" kind. Perhaps, however, the people over the river will prefer a man who hasn't a record to run from. The *Olympia Transcript* says: Smallwood never practiced law in Kansas or elsewhere and was only admitted to the bar at the last term of court, and then through sheer sympathy rather than for qualification. He never was in the district court as a lawyer, and never tried a case but asks an office which requires a good knowledge of law and some experience in the profession. On the other hand, Mr Bloomfield has been favorably known as a lawyer in active practice for the last eight years, four of which has been in the service of the people as prosecuting attorney and whose record as such has been unprecedented. The question now is: Will the people support and nominate Mr Bloomfield who has so faithfully served them and saved the taxpayers hundreds of dollars by his care of management of the duties of his office or will they vote for a man without a record, a lawyer without reputation and experience simply because he is the willing tool of a set of political schemers, whose greatest service is to draw salaries? It is time the people should set down on such jobberies and pot ... eat adventurers.

British Columbia.

Railroad building in British Columbia is progressing very rapidly and there is a regular business boom at Yale. Eighteen miles of grading is now under way.

A report is current in British Columbia that the Dominion government declines to continue the subsidy of $100 000, payable on account of crown lands on the 1st July and the 1st of January in each year in consequence of the refusal of British Columbia to allow the Dominion to select lands for railway purposes in portions of the province remote from the line of railway. It is added that the payment of $50 000 now due has been or will be refused.

It is fitted with the best machinery and appliances to be had and is capable of turning out 5000 barrels of flour every twenty four hours. To make 5000 barrels of flour requires 1[illegible]00 [illegible]ls of wheat, or the product—as the [illegible] harvests run—of 1000 acres of land.

Gen Hancock is credited in Washington with the intention of resigning his command in the army before the promulgation of his letter of acceptance. We should advise the general to hold on to his commission; it may come handy after March next.

DOCTORS GAVE HIM UP

"Is it possible that Mr Godfrey is up and at work and cured by so simple a remedy?"

I assure you it is true that he is entirely cured and with nothing but Hop Bitters and only ten days ago his doctors gave him up and said he must die.

"Well-a-day! That is remarkable! I will go this minute and get some for my poor George. I know hops are good."

COSHOCTON STATION N Y Dec 28, 1878

Gents—A number of people had been using your Bitters here and with marked effect. In fact one case a lady of over seventy years had been sick for years and for the past ten years I have known her she has not been able to be around half the time. About six months ago she got so feeble she was *helpless*. Her old remedies or physicians being of no avail I sent to Deposit, forty five miles and got a bottle of Hop Bitters. It had such a very beneficial effect on her that one bottle improved her so she was able to dress herself and walk about the house. When she had taken a second bottle she was able to take care of her own room and walk out to her neighbor's and has improved all the time since. My wife and children also have derived great benefit from their use.

An Enthusiastic Endorsement.

GORHAM N H, July 14, 1879

Gents—Whoever you are, I don't know, but I thank the Lord and feel grateful to you, to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do, and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle but did not see any change; another so changed my nerves that they are now as strong as they ever were. It used to take both hands to write but now my right hand writes this. Now if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow men that was ever conferred on mankind.

Duty to Others.

CHAMBERSBURG July 25 1879

This is to let the people know that I, Anna Maria Krider, wife of Tobias Krider, am now seventy-four years of age. My health has been very bad for some years past. I was troubled with weakness, bad cough, dyspepsia, great debility and constipation of the bowels. I was so miserable I could hardly eat anything. I heard of Hop Bitters and was resolved to try them. I have only used three bottles, and I feel wonderful good, well and strong again. My bowels are regular, my appetite good and cough all gone. I feel so well that I think it my duty to let the people know as so many knew how bad I was what the medicine has done for me so they can cure themselves with it.

Wife of Tobias Krider.

My mother says that Hop Bitters is the only thing that will keep her from her old and severe attacks of paralysis and headache —Ed *Oswego Sun*

A Husband's Testimony

My wife was troubled for years with blotches, moth patches and pimples on her face, which nearly annoyed the life out of her. She spent many dollars on the thousand infallible (?) cures with nothing but injurious effects. A lady friend of Syracuse N Y who had had similar experience had been cured with Hop Bitters induced her to try it. One bottle has made her face as smooth fair and soft as a child's and gives her such health that it seems almost a miracle.

A Rich Lady's Experience.

I traveled all over Europe and other foreign countries at a cost of thousands of dollars in search of health and found it not. I returned discouraged and disheartened and was restored to real youthful health and spirits with less than two Bottles of Hop Bitters. I hope others may profit by my experience and stay at home.

A LADY, AUGUSTA ME

A Lovely Chaplet.

A late fashion report says: Nothing can be prettier than a chaplet of hop vines in blossom. A recent medical review says: Nothing can be better as a general renovator of the health than plenty of Hop Bitters. They aid in all the operations of nature, toning up the weak stomach assisting the food to become properly assimilated and promoting healthy action in all the organs. The dictates of fashion as well as the laws of health alike favor a right application of hops.

Don't Use Stimulants.

Use nature's real brain and nerve food and nourishing tonic Hop bitters, that quiets the nerves, invigorates the body, cures disease and restores the vital energies without intoxicating.

DELEVAN, WIS., Sept 24 1878

Gents—I have taken not quite one bottle of the Hop Bitters. I was a feeble old man of 78 when I got it. To-day I am as active and feel as well as I did at 30. I see a great many that need such a medicine.

D BOYCE

MONROE, MICH, Sept. 25 1878

Sirs—I have been taking Hop Bitters for inflammation of kidneys and bladder, it has done for me what four doctors failed to do. The effect of the bitters seemed like magic to me.

W L CARTER

If you have a sick friend whose life is a burden one bottle of Hop Bitters may restore that friend to perfect health and happiness. Will you see that that friend has a bottle at once?

BRADFORD PA May 8 1878

It has cured me of several diseases such as nervousness, sickness at the stomach, monthly troubles &c. I have not seen a sick day in a year since I took Hop Bitters. All of my neighbors use them.

EVANSVILLE WIS June 24 1879

Gentlemen—No Bitters have had one-half the sale here and given such universal satisfaction as your Hop Bitters have. We take pleasure in speaking for their welfare, as every one who tries them is well satisfied with the results. Several such remarkable cures have been made with them here that there are a number of earnest workers in the Hop Bitters cause. One person gained eleven pounds from taking only a few bottles.

Moral Turpitude

Blame attaches to a jury of intelligent men when they condemn a man for crime whose moral nature has been perverted by indigestion or diseased liver and kidneys. A thoughtful judge may well consider whether society would not be better served by ordering a bottle of Hop Bitters for the unfortunate in the dock instead of a sentence of penal servitude.

Colorless and Cold

A young girl deeply regretted that she was so colorless and cold. Her face was too white and her hands and feet felt as though the blood did not circulate. After one bottle of Hop Bitters had been taken she was the rosiest and healthiest girl in the village with a vivacity and cheerfulness of mind gratifying to her friends.

POLITICAL MATTERS

Democratic Fuss and Feathers.

NEW YORK July 23—The *Herald* thinks that having noted the multitude of democratic statesmen who are visiting this city during the past week evinces a deplorable ignorance of the method in which the campaign should be conducted. They are managers of the ... and ... They have been sitting daily in ... at the Fifth Avenue Hotel and elsewhere, have been making excursion trips down the bay ... congratulation to Governor ... and has been lunching and wining in ... Park ... of ... speeches on these occasions, but not a word has been said in any of them to the public which ... of ... the presidential canvass in the world designed to argue that the people will be any better off in their homes or efforts by electing the democratic candidate. On the contrary they have been doing nothing but fuss and feathers.

Democratic Judgment.

WASHINGTON July 10—Representative Hendrick B Wright of Pennsylvania, the democratic greenbacker, ought certainly to be an impartial judge of the situation in that state as between the republican and democratic parties. At all events, he will never be charged with looking with friendly eyes upon the republicans. He is here and on being asked whether Hancock was going to carry Pennsylvania as democratic papers alleged, said most decidedly:

"No. I see that such a statement is being circulated in certain newspapers. It is all nonsense. Gen Hancock has not even the slightest chance of carrying the state. Pennsylvania is in fact more certainly republican in the next election than even Ohio."

Veterans not for Hancock.

NEW YORK July 17—It having been said that fifty of the seventy officers of the Third Army Corps (Hancock's) who attended the recent reunion at Cape May, expressed themselves in favor of Hancock for president, Thomas Rafferty late lieutenant-colonel of the seventy first New York volunteers, Third Army Corps publishes a card over his own signature contradicting the statement. He asserts that the next day after the statement appeared a canvass of the officers was made and "there were found just four of us and no more, who would vote for Hancock."

Grant on Hancock.

WASHINGTON, July 17—In connection with the stories circulated by democratic papers that General Grant has spoken favorably of General Hancock as a presidential candidate, a gentleman to-night recalled a conversation with him when in New Orleans April last. A New Orleans democratic paper at this time announced itself for Hancock. General Grant, referring to the matter, said: "I don't think Hancock could be elected. He was a good corps commander; he is no politician and I don't think he is much of a democrat. I don't think a second class soldier can inspire sufficient enthusiasm to elect him as a military hero. The history of military candidates shows that only the Commander-in-chief in the conflict has ever been successful. I remember that in 1864, at the democratic convention, one vote was cast for Hancock. I hardly think this was the first time he ever knew he was a democrat."

Worry About Applegate

WASHINGTON, July 17—It is reported that Elisha L Applegate, night inspector of customs at Portland, Oregon, is one of the republican candidates for the office of presidential elector. In view of the constitutional questions which arose during the last presidential campaign relating to matters of this kind it will seem to be the part of wisdom that Applegate should either resign his inspectorship or withdraw from the ticket in season to allow his place to be filled. (Let there be no fear about Applegate. He will get out in time.—ED OREGONIAN.)

SATURDAY MORNING JULY 24 1880

A TRANSPARENT MASK

Senator Hoar who presided over the Chicago convention recently said General Hancock is the mask of democracy This statement contains in its few simple words all the truth General Hancock was nominated to catch votes with his war record. And yet the war record of the party whose candidate he is had its most perfect expression in Vallandigham This individual selected or accepted as the leader of the party in the crisis of the war embodied its ideas and objects during that trying period Five-sixths of the party stood with him and for the purposes his leadership represented Therefore when this party nominates General Hancock upon his record as a soldier its one object is to mask its character and designs Again the extra session represented fully and clearly the present spirit, aims and objects of the party Under the leadership of Thurman, Blackburn and others, a tremendous fight was made for overthrow of certain laws which stand opposed to the principles of the confederate and state sovereignty party, and which are at once designed to enforce fairness in elections and to attest the nationality of the United States On this issue of its own making the democratic party confidently staked its hopes and its future It had no doubt of the result The fight it made for months was never exceeded in rancor, It boldly proclaimed once more the essential ideas of the confederacy as the true theory of the constitution and government of the United States The answer came in the elections of last year. And now, instead of presenting a candidate distinctly identified with the party, a candidate who represents its purposes and who was a leader in the struggle, it takes a soldier whose laurels were won in battle against the confederate and state supremacy doctrines contended for in the great struggle of the extra session That is, it has taken Gen. Hancock as a mask, to conceal its objects and intentions. The dishonesty is too transparent It is not General Hancock who is striving for the presidential chair, but the party behind him His election therefore would mean the ascendency of its ideas and doctrines. These are the facts which will be kept in view during the contest Since the country didn't desire the ascendency of the democratic party under Vallandigham, and frowned upon the objects of the party as shown in the extra session, why should it now be willing to accept the same party merely under change of leaders and without any change of principles and purposes? It will not. The mask will not avail

SANITARY CONDITIONS.

Occasional cases of yellow fever are again reported in the southern states. These cases seem as yet merely sporadic, as there is no sign of their development into an epidemic but the summer is not yet far advanced and actual danger may at any time appear It is a disease which has its home amid the filth of tropical America. It appears to be destructive to the western world, and prevails at all times in Cuba, from whence it is liable to be brought any summer to our Atlantic and gulf seaports But by timely quarantine regulations, and by keeping such seaports in good sanitary condition, the disease is usually localized and now seldom spreads as it did formerly Yet where sanitary problems are very difficult, as in New Orleans, it becomes no easy matter to exclude the yellow fever All great diseases which scourge mankind have originated in filth "Man is a poisonous animal;" the ocean of air and the ocean of water has been provided to cleanse and purify him, but they are themselves defiled by the contact, and when once they have done our service they must be cast out as unclean Where men gather in cities the conditions of life must be guarded with jealous care Human filth is the hot bed of epidemic diseases Portland is yet only a small city but the high water recently brought to the surface the filth of sewers and vaults which polluted the air and converted every overflowed locality into an offensive spot As the city grows larger there will be a vast increase of this filth bearing the germs of disease, and with every overflow it will become more offensive and dangerous This is the strongest possible argument both for raising the grades at the lower end of the city and also for the adoption of a plan of sewerage which will not be obstructed on these occasions as now It is not probable we shall ever have yellow fever here but there is a multitude of other diseases which owe their origin to want of public and private cleanliness, some of which we are likely to be troubled with if proper precautions are not taken

A NATIONAL ACHIEVEMENT

The London *Saturday Review* one of the most noted organs of English opinion, in an article on America, reaches this conclusion,

"When foreign and native critics of contemporary American politics denounce the degeneracy of the people they should at least bear in mind that, while the contemporaries of Washington made no sort of effort even to maintain the credit of their paper money, those of Lincoln and Grant honestly paid every penny of the vast debt they had incurred The United States started bankrupt alike of money and of honor in 1789, from a not less arduous struggle the United States of 1869 emerged solvent, and with a higher credit than that of any European nation except England and France." This is a word for America which, notwithstanding all that is said of the decay of national honesty and national conscience, among us the facts fully justify As there never was before such a rebellion beaten down as our people conquered, so never before has there been so sturdy an attempt or so high a resolve to pay a great debt so incurred The people who suppressed the rebellion have literally fought to maintain their faith to pay the debt caused by it, and have preserved that faith against every kind of insidious attack or open assault More than one-fourth of the whole debt has been actually paid the interest has been so reduced that the balance of the work is comparatively easy of accomplishment At the same time the currency of the country has been restored to a firm foundation. The people of the United States should never forget how it was accomplished or how many, who had been deemed wise said it was attempting the impossible how many others, who claim now that they have always been true demanded repudiation and advocated dishonor But still the right was pressed and the people sustained it until slowly the states were regained their exercises then the usurers who had bought our bonds at a discount were repaid interest was gradually reduced year by year less taxes were levied the irredeemable currency of the country advanced in value until in fourteen years after the close of the war it had reached par with gold and there was not a man in the republic who was not glad that the course marked out at first had been followed despite of complaints, sneers and reproaches Abroad it has struck all peoples with astonishment, and in the estimation of all the world has advanced our republic to the very front rank of nations. Grudgingly and at a heavy discount England and Germany and the Dutch states furnished us gold on our bonds Last year we redeemed millions and tens of millions of them in gold for the hungry people of those same countries It was a payment which was not only an assurance of American honesty but also of other capacity to furnish the world with food The way the debt of the United States has been handled since the war is such a proof of American greatness and American honesty as was never furnished by any nation on earth before

The more shallow and imbecile of the democratic journals continue to made a great ado in publishing long articles about republicans who are alleged to have declared for Hancock Merely for amusement a friend has as he tells us kept an account of the number of these wonderful conversions as gathered from an organ which devotes most of its space to the subject The whole number collected from all parts of the United States, is just nine This includes none in Oregon for the good reason that none can be found in the state It may be added too that several of the nine have been misrepresented as they have not declared for Hancock at all But it suits the hand organ business every bit as well as if they had. Who moreover, does not remember what multitudes of noted republicans were paraded in 1872 as having declared for Greeley? And yet Greeley great as he was, was the worst beaten candidate in our history To every observing and intelligent person it is apparent that the changes from one side to the other on this occasion are fewer than in former contests But they have no significance at all either way, and it is only the most shallow organ-grinders who occupy themselves in parading names which are said to be changing from Hancock to Garfield or from Garfield to Hancock The result will not be decided by these few fussy and self-important people, whose votes will be utterly lost in the great snow fall of popular ballots

Among other campaign roorbacks which have been started is one to the effect that Gen Garfield introduced a bill in congress to legislate Gen Hancock out of his position in the army He did nothing of the sort In 1868, Gen. Garfield, from the military committee, introduced a bill to fix the military peace establishment, providing among other things that no vacancies should be filled in the office of major general until the number should be less than four Gen Hancock was a major general at that time and the bill would have had no effect whatever upon his position Gen. Butler introduced an amendment providing that the number of major generals should be but three, who should be selected by the general of the army without regard to seniority This from the character of Gen. Butler and his methods of partisanship may be supposed to have been aimed at Gen Hancock but it was vigorously opposed by Gen Garfield, who both spoke and voted against it, declaring in the course of the debate on the bill that he was opposed to all such political distinctions.

There have been frequent rumors during weeks past that the democratic situation in Indiana was full of trouble for the leaders of that party, and these rumors derive additional probability through a dispatch we publish to-day. This unpleasantness in Indiana is one of many signs that the democratic party has not that cohesiveness which gave it its great strength four years ago Among the first of these signs by the way, was the Oregon election

It is known that Oregon produces flax of most excellent fibre. It will be a highly profitable crop when we begin to work it up for all it is worth—that is, both for the fibre and the seed

The Daily Oregonian.

SATURDAY MORNING JULY 24 1880

CITY.

LAUNCHED.—The Pacific bridge company has just launched at the foot of North Fourteenth street one of the finest and most substantial scows ever built on the coast. It is to have new and improved machinery which has arrived on the State of California. The scow was built under the supervision and management of Mr Joe Packet and will commence driving piles on next Monday in the neighborhood of smith's mill for the narrow gauge railroad company. Mr George Betts has arrived from San Francisco for the purpose of taking charge of the work and will push it forward immediately.

DEATH OF MISS ABBOTT.—A correspondent writing from Vancouver yesterday sends the following: Miss Minnie Abbott daughter of Mrs Abbot of this city after a short illness died quite suddenly last evening at o'clock. Her untimely death has now carried the whole of our afflicted neighbor who has the sympathy of all in this hour of her bereavement. Minnie was beloved by all who knew her. Funeral will take place to-day from the Episcopal church Rev Mr N officiating.

LAST TRIP.—The steamship *Elder* will sail from San Francisco for Portland to-morrow morning at 10 o'clock. This will be the last trip which the *Elder* will make between this port and San Francisco—at least for the present. She will sail from here on August 1st, and after discharging freight will be thoroughly overhauled repaired and put in first class condition. The new and splendid steamship *Columbia* will be placed on the Portland San Francisco route in place of the *Elder*. The company has not decided yet on what line the *Elder* will be placed.

HALF FARE RATES.—The O R & N Co have generously granted half fare rates to all Knights Templar and their wives who propose to make the pilgrimage to Chicago to attend the triennial meeting of the grand encampment of the United States or to visit San Francisco to attend the consecration services and other ceremonies incident to the departure of the grand commandery of California. All intending to avail themselves of this privilege will notify the recorder forthwith as the steamer *Elder* sails August 1st.

CHANGES IN THE O R & N Co's DOCKS.—It is reliably stated that the principal depot of the Oregon Railway and Navigation company will in a few weeks be moved from the foot of Ash street to Ainsworth dock and that all Columbia river boats will arrive and leave from there. As soon as the company's lease on the Central dock expires the Willamette river boats and extra boats and barges will use the Ash street dock for their landing place.

THE CLOSING HANDEL AND HAYDN CONCERT.—The Handel and Haydn society assisted by the 21st infantry band or rather the regimental band assisted by the Handel and Haydn society will give a grand concert in Mechanics' Fair pavilion next Friday evening. The affair will partake of the nature of a summer night's festival with promenades lunches and dancing. Full programme will be issued Monday.

CRICKET MATCH THIS AFTERNOON.—The following elevens will contest for superiority at cricket at the South Portland ground, beginning at 2.30 P M precisely. Creighton Bourne Maxwell M Sibson W S Sibson Molson, Robertson Graham Cran Holcomb and Anglin, against Kinross Andrews, Allen Beutjen, Warren, Hotman J Kamm Carry Boyd, Watkins and Adams. Trap leaves New Market Theatre at 2 P M

RELEASED.—The case of J C Ross the detective charged with embezzlement of a small sum came up in the police court yesterday afternoon and there being no evidence to criminate him he was discharged. In justice to Mr Ross it must be stated that his arrest was caused by the neglect of a third party to pay over to P W Robinson $13 50 which an out of town agent of Ross's had collected for Robinson.

EXERCISING CAUTION.—Vast numbers of trees were prostrated last winter during the memorable wind storm of January 9th. For this reason the very greatest caution should be exercised in order to prevent fires from getting out among the fallen timber. The time of the year is coming when everything will become dry as tinder and fires getting a start will do great damage to property.

THE NEW STEAMER.—The *Columbia* is discharging her cargo of railway supplies at the steamship dock on barges. The work of unloading will occupy at least ten or twelve days, and the ship will not be thrown open for public inspection until after the first of August.

REGULAR TRIPS.—The Jefferson Street Ferry Co having made the required arrangements will commence to-day (Saturday) to make regular trips at 7 o'clock A. M with their staunch little steamer *Veto* between Jefferson and D streets. For full particulars see ad.

UNDER ARREST.—On complaint of Carrie Bradley Harry Peterson was arrested last night on a charge of threatening to kill her. Peterson was taken to the city jail and now gazes mournfully through bars. His case will be inquired into to-day.

LADD & BUSH VS SEARS.—In the case of Ladd & Bush vs George C Sears tried at Salem on Thursday, a verdict was rendered in favor of the plaintiffs. Defendant, it is said will either move for a new trial or take an appeal.

BARBERS—EARLY CLOSING.—Last evening the various barbers of the city and their employes held a meeting at which it was mutually agreed to close at 8 o'clock P M every evening except on Saturdays and on holidays.

INSANE PATIENT.—Sheriff F D Snebly, of Yakima county, W T arrived in the city yesterday, having in charge Richard Fear an insane patient, whom he will take to Steilacoom this morning.

CHURCH NOTICE.—During the absence of Mr Elliot the Unitarian church will remain closed. Neither church service or Sunday school will be held till the last Sunday in August.

NUISANCE RUDENESS AND OUTRAGE

OLYMPIA, July 19 1880

TO THE EDITOR OF THE OREGONIAN

Is it possible that the boasted refinement of Olympia has reached its climax and is now undergoing the dreaded process of retrogression?

Last Wednesday evening a few relatives and friends met at one of the principal hotels in the heart of the city to celebrate the marriage of a young lady and gentleman than whom no affianced pair were ever more highly esteemed or respectably connected.

Scarcely had the solemn rites been concluded, than the hideous din of a *charivari* belched forth from the opposite side of the street. So sudden and unearthly were the sounds that several ladies and a little child in the company were rendered well nigh frantic with fear. Desperate means were taken by a couple of gentlemen and the officiating clergyman to disperse the mob and much to their chagrin the names of the principal actors were taken on the spot. These names, though belonging to some of the alleged *first families*, are forever seared as with a hot iron upon the memory of those who composed the wedding party. In behalf of the interested and grossly injured parties I make bare mention of the facts leaving the good people of Olympia to draw their own conclusions. Every civilized and refined community ought long ago to have been freed from the nuisance of this relic of barbarism.

THE WORLD MOVES

Cates' Wonderful Geographical Clock—An Oregon Invention

Those who think the age of improvement and invention passed will be astonished when Prof L Cary exhibits this wonderfully instructive and pleasing time keeper. It was invented by William A Cates of Union Oregon and is attracting more attention than all other inventions on the coast. All scientists and educators who have seen the clock are at once delighted and astonished. The face of the clock comprehends the whole system of geography latitude and longitude. The time will come when no school or library will be considered complete without one. While the mechanism is so peculiar yet the price will be within reach of people of ordinary mean.

Prof L Cary will probably place the people of Oregon under renewed obligations to him by giving them an opportunity to see this great wonder.

PROTECTION OF DOCKS FROM FIRE.

The Jefferson Street Ferry Company Proposes to Allow the "Veto" to be Used as a Fire Boat.

It will be remembered that for the past year the city council the board of trade and local board of underwriters have made endeavors to secure the services of a boat to be fitted up with a strong pump and suitable amount of hose as additional protection from fire to docks and other property on the lower side of Front street. Propositions were made to the Oregon and California railroad for the use of their new iron ferry but no negotiations were concluded. The Jefferson Street Ferry Company propose now to allow their new boat the *Veto* to be used as a fire boat, and promises to have steam up at all hours of the night, both for the accommodation of patrons and for emergencies in case of fire along the docks. The following communication from the president of the company on the subject was intended to be submitted to the city council at its meeting last Wednesday evening, but was unavoidably delayed. It will be presented at the next meeting.

THREE MEN BADLY BURNED

Yesterday forenoon about 9 o'clock a very shocking accident occurred at the Oswego Iron Works which came near causing three men to lose their lives. It seems that J C Sanborne and two other men—Bromley and Scott—were engaged in the furnace room shoveling coal into the furnace. For some reason the stock slipped in the stack falling about six feet. This movement forced the red hot coals and flames out through the furnace door on the men who unfortunately happened to be standing in front. The stock had burned out leaving a sort of hollow and as the furnace had been shut down for some time and got cold it hung in the stack until the mass until it burned up that height when it fell. The coal and flames struck Sanborne who was standing directly in the way. The flames completely enveloped him burning him shockingly. The heat was so great that Sanborne and caused him to sink to the floor insensible. In doing so it is thought he inhaled some of the flames and gases. Bromley was also enveloped his hair and whiskers being burned off and the flesh on his hands and face fearfully burned. He turned and threw himself down the stairway in intense agony. Scott was more fortunate although his hands and face were badly cracked and his hair and whiskers burned. Several persons who witnessed the accident rushed into the furnace room and carried Sanborne out to the open air. Soon after the accident the steamer came along and Sanborne and Scott were placed on board and brought to this city. Sanborne was subsequently conveyed to Good Samaritan Hospital where he is now. His face and head are fearfully burned. Very little hopes are entertained of Sanborne's recovery. The injured men have no families.

THE SCREENED ROCK ORDINANCE

PORTLAND July 23 1880

TO THE EDITOR OF THE OREGONIAN

An ordinance has passed its second reading in the city council which provides that hereafter all macadam streets shall be covered with a layer of screened stone. This ordinance if it becomes a law will place the macadam work of the city under the control of a monopoly for which property holders will have to pay dearly. In plain fact is, that some of our city officers have actually gone daft over this screened work business just as some of our clearest headed men went crazy a few years ago over Col Thorpe's patent stone. If a man will think but one moment he cannot but come to the conclusion that a covering of fine broken rock and sand will wear longer than a covering of crushed and screened rock as the former will take years of wear and tear from travel before it becomes pulverised ready to go into mud and dust as the crushed and screened rock is now already prepared to go. The street work that has turned the heads of our city fathers is as pretty as a spotted pony. But the property holders want durable and not pretty streets. At least they don't want to have to pay for beauty what this ordinance would compel them to pay by throwing the work all in the hands of a monopoly. An ordinance was passed for an improvement of a portion of Third street some time ago the macadam to be covered with screened rock (monopoly). Another ordinance was passed for the improvement of a portion of Jefferson street the macadam to be covered with screened rock or sand (competition). They were let on the same day. The price for the Third street (monopoly) was $ per cubic yard. The price for Jefferson street (competition) was $1 25 per cubic yard. Mr mayor and gentlemen of the common council let this monopoly business stop right here.

A QUESTION OF FACT.

PORTLAND July 23 1880

TO THE EDITOR OF THE OREGONIAN

I enter into no controversy with the author of the real estate market reports which appear in your columns. But there is a simple question of fact which the public may consider. The correctness of my assertion that the shallows referred to are from 20 to 25 feet above low water mark is easily tested. Of the area in question whose location and limits have been somewhat vaguely defined by the defense) a considerable portion is above water at this time—the gauge indicating 23 feet above low water and the remainder is generally from 3 to 5 feet lower.

I am still of the opinion that this discussion need not be extended indeed discussions belong rather to matters of opinion than to question of fact. But I will for convenience sake accept the word "shallows" used by the author of the report to denote a tract of land 20 feet above low water, although its employment in this case may be regarded as somewhat original.

WILD FIGURING

PORTLAND July 23d 1880

TO THE EDITOR OF THE OREGONIAN

The city surveyor's estimate for excavation for the Alder street sewer is 2600 cubic yards. The length of the sewer is 1520 feet. Allow the excavation of a trench the entire length 3 feet wide at the top 2 feet at the bottom and 11 feet deep and it gives 1540 cubic yards to which about 60 cubic yards should be added for man holes and catch basins thus making a total of 1600 cubic yards. Now where does the surveyor find the extra 1000 yards for which the property holders on Alder street are compelled to pay? The committee on streets should look into this matter correct this error and ascertain the surveyor's mode of figuring and if found to be universally faulty present him with a copy of Daboll's arithmetic. Let this matter be straightened out at once.

Thursday was the 4th anniversary of the birthday of Mrs Clara Skinner mother of Mrs Wm Wadhams of this city, a lady whose Christian character and calm dignities under the most cheerless still have made her respected the object of affection of all around her ... score of years ... night. Patient ... as her children ... Thursday night a large company of the friends of Mrs Skinner called at the residence of Mr Wadhams ... a number and after ... a Bible ... letter ... large volume ... For some years you have been unable to read this book ... with your eyes the ... light of day ... Milton ... *summit say*

Seasons return but not to me returns
Day or the sweet approach of even or morn
But cloud instead and ever during dark
Surrounds me

Yet can you not ... with the emphasis of exultation ... I am with thee ... Psalmist ... Thy word is a lamp to my feet and a light unto my path.

This word ... we have in such form as will enable you to trace with your own fingers letter ... letter ... it is ... precious ... during your journey.

As your finger passes over its pages ... the words of ... Thomas ... finger and behold my hand ... come to you with ... force as ... can exclaim not from lack of faith but with a faith most abounding. My Lord and my God ... And again these words: That which was from the beginning, which we have heard which we have seen with our eyes which we have looked upon and our hands have handled of *the word of life*.

And now it only remains for me to express our united congratulations that another anniversary of your grand life has been reached. What a holy calm seems to pervade your life—even now's twilight. That your life day has been a bright one, luminous with kind words good deeds and holy living finds analogy in the fact that the brightest day has the most beautiful evening twilight.

With a voice tremulous from emotion Mrs Skinner expressed the feelings of a grateful heart. Her thanks were touching in their simplicity. Prayer by Dr A L Lindsley followed after which the company spent an hour or more in singing and pleasant social intercourse.

HEIFERS FROM BEST MILKERS.

We think, says *The National Live Stock Journal*, all the best dairymen are agreed in regard to the profit of raising their own cows to supply additions to their herds. Very few have ever selected a valuable herd wholly by purchase. It has been said that if total depravity can ever be alleged against a farmer it will be found in his representations on the sale of cows. We have often enumerated the important points in favor of home raised cows and one of the most important is the opportunity of selecting the heifer calves from the best milkers both for quantity and quality. If the dairyman gives no heed to this point, he will perpetuate his worthless cows with his good ones and thus never improve his dairy herd. A large majority of dairymen have cows in their herds that do not pay their keeping and as they do not apply a test to the individual cows they continue not only to keep them, but to breed from them. This is the most suicidal policy. Although we strongly recommend dairymen to raise their own cows, we are far from advising them to perpetuate their poor cows. It would be even better policy to give them away to a favorite brother in law. The heifer calves from only the best cows should be raised and the weeding out should go on still further. When those heifers come into milk those that do not come up to the proper standard should be discarded. A careful test should always be made of each cow in the herd, and of each heifer during her first period of milking. If the heifer has the appearance of a well formed milker and of having had a good dam, it may not be judicious to pass upon her during her first milking season if her quality is below the standard, for the next season may develop her satisfactorily.

This saving of heifer calves only from the best milkers, and then weeding out the poorest of these, will soon lay the foundation for a choice dairy herd. And let us make the further important point that selecting a pure-bred male from an especially good milking strain and then selecting the heifer from the best milkers and following up this mode of breeding for even ten years with males from the same strain of blood, the blood of the progeny becomes unified and intensified to a degree of potency almost equal to a thoroughbred. The dairyman may then place a strong reliance upon the milking power of the future progeny. He has thus molded a breed to suit his own wants. When dairymen shall proceed upon this systematic plan of growing their own dairy herds, we shall hear much less of the unprofitableness of the dairy. Of course great care must be taken to study the wants of these young animals as to food and shelter. Good food and care are necessary to show the excellence of any strain of blood. The best blood will soon deteriorate under unskillful feeding. The heifer calves from the best milkers should be generously fed from the beginning with such food as will grow the frame and muscles, consequently nitrogenous food is more important. Skim-milk, oil meals, wheat, bran, oats, barley, and clover are all good. They must always be fed with nitrogenous food.

SAN FRANCISCO FREIGHT MARKET.

[SPECIAL TO THE OREGONIAN.]

SAN FRANCISCO, July 23.—The *Commercial News* review of the freight market. The list of tonnage in port loading wheat has been increased during the week by the arrival of one vessel under charter, and the disengaged list has had four ships added and one taken out. At the present time there are in port loading wheat or disengaged 32 897 tons and the amount on the way aggregates 179 ?83 tons—giving a total of 212,?80 tons against 235 491 tons at the same time last year.

Although several vessels are now fully due the amount to arrive within the next sixty days is light and holders are exceedingly firm in their views. Asking rates at present are £3 for Cork U K and for wooden, and £3, 2s. 6d direct for iron ships. Although there is some inquiry exporters are not willing to pay these figures, and as wheat is also firmly held at prices that shippers cannot pay, business for the past week has been at a stand still. Some few iron ships have been taken to arrive at about £3 to C k canceling dates. No spot charters have been drawn during the week for wheat, and but one vessel has been taken for outside business.

Such as SPERMATORRHEA or SEMINAL WEAKNESS or LOSS OF PERFECT VITALITY. Nearly two thirds of all the Chronic Diseases spring either directly or indirectly from some derangement of the sexual system and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time from a sense of ?? and sometimes from ignorance and permit these diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted until death becomes a welcome messenger to carry them out of their miserable existence.

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver

PAIN in the right side, under the edge of the ribs, increases on pressure, sometimes the pain is in the left side, the patient is rarely able to lie on the left side, sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are costive, sometimes alternative with lax, the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility, he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin, his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR C MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros of Pittsburgh, Pa, the market being full of imitations of the name McLane, spelled differently but same pronunciation.
